Peruvian Guano Substitute!

BAUGH'S
RAW BONE
SUPER-PHOSPHATE OF LIME.

TRADE MARK

BAUGH & SONS,
Sole Proprietors and Manufacturers,
Delaware River Chemical Works,
PHILADELPHIA, U. S. A.

For WHEAT, RYE, BARLEY, CORN, OATS, POTATOES, TOBACCO, BUCKWHEAT, SORGHUM, TURNIPS, HOPS, GARDEN VEGETABLES, and every Crop and Plant.

Especially recommended to growers of STRAWBERRIES, RASPBERRIES, BLACKBERRIES, and all SMALL FRUITS.

More than 13 years of regular use upon all descriptions of Crops grown in the Middle and Southern States, has given a high degree of popularity to this MANURE, which places its application now entirely beyond a mere experiment.

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME is eminently a success as a Substitute for Peruvian Guano and Stable Manure—and is offered to the Agriculturists of the Northern and Eastern States as a fertilizer that will cheaply restore to the Soil, those essentials which have been drained from it by constant cropping and light manuring.

IT is very prompt in its action—is lasting in effect to a degree unattained by any commercial manure in the market, and is afforded at a much less cost than *bought* Stable Manure, or Peruvian Guano. The Labor involved in its use is far less than that of applying stable manure, while there is no risk from the introduction of noxious weeds.

☞Farmers are recommended to purchase of the dealer located in their neighborhood. In sections where no dealer is yet established, the Phosphate may be procured directly from the undersigned. A Priced Circular will be sent to all who apply.

Our NEW PAMPHLET, *"How to Maintain the Fertility of American Farms,"*—90 pages, giving full information in regard to the use of manure, &c., will be furnished gratis on application.

Selected Poetry.

THERE'S WORK ENOUGH TO DO.

The blackbird early leaves its nest,
To meet the smiling morn,
And gathering fragments for its nest
From upland, wood, and lawn;
The busy bee that wings its way
'Mid sweets of varied hue,
At every flower would seem to say—
"There's work enough to do."

The cowslip and the spreading vine,
The daisy in the grass,
The snow-drop and the eglantine,
Preach sermons as we pass;
The ant within its cavern deep,
Would bid us labor too,
And smiles upon its tiny heap—
"There's work enough to do."

To have a heart for those who weep,
The sottish drunkard win;
To rescue all the children, deep
In ignorance and sin;
To help the poor, the hungry feed,
To give him coat and shoe,
To see that all can write and read,
"There's work enough to do."

The time is short—the world is wide
And much has to be done;
This wond'rous earth, and all its pride,
Will vanish with the sun!
The moments fly on lightning wings,
And life's uncertain too;
We've none to waste on foolish things—
"There's work enough to do."

The planets to their Maker's will,
Move onward in their cars,
For nature's wheel is never still—
Progressive as the stars!
The leaves that flutter in the air,
The summer breezes too,
One solemn truth to man declare—
"There's work enough to do."

Who then can sleep when all around
Is active, fresh, and free?
Shall man—creation's lord be found
Less busy than the bee?
Our courts and alleys are the field,
If men would search them through,
The best the sweets of labor yield,
And "work enough to do."

ORNAMENTAL TREES.

Nothing improves the lawn, or the front yard to a house in the country, more than a judicious selection of ornamental trees. They are not only an adornment, but a permanent improvement to the rural homestead. Even the cheap house, the plain cottage, rough, unpainted and constructed without architectural taste, are improved by contiguity of shade trees. The landscape is ideal and picturesque only by fruit and forest trees; and the chief charm to country houses, in our estimation, is the ornamental trees which stand grandly around them.

Evergreens, among other varieties, should not be overlooked; and as they thrive in nearly all descriptions of soils, are not liable to failure. Among these we would recommend the Norway Spruce, Austrian Pine, White Pine and Hemlock Spruce. These are all beautiful trees. They grow large, consequently should not be planted nearer than ten feet from the walk or road, else they will require trimming, which destroys their natural grace, fullness and beauty. Among dwarf evergreens, we like the Siberian Arborteæ, the English Yew, and the Irish Juniper. The best time for transplanting these trees is a mooted question. Some prefer the Fall of the year, while others select the Spring. Thomas Mechan, in his book on Ornamental Trees, says, "Autumn planting is preferable under most circumstances; yet it can be done in any season of the year." He adds:—"I have planted every month, for experiment's sake. The worst period is just after the tree has burst forth its leaves in Spring." This is true; but there is little danger to success if properly transplanted. We have set out evergreens in April, May, and even in June, and rarely lost a tree. In the Northern States June is regarded as a favorable time. Select smallish trees plant on dry, or drained land, and with proper transplanting, they will generally live and grow vigorously.—*Farm and Fireside.*

TWENTY-THREE WHEAT CROPS FROM SAME SOIL.—An English country gentleman has been experimenting for twenty-three successive years on the land, in wheat culture. He has fertilized with farm-yard and artificial manures, and the average yield per acre in bushels has been thirty-five for the former, and thirty-nine for the latter. For the last three years the yield of wheat has materially declined.

LARGE COLTS.—George Foster, of the town of Weare, N. H., has a colt 11 months old that weighs 610 pounds. The colt was sired by the Abdallah horse of Wilton. Arctas Blood, Esq., of the city of Manchester, in the same State, has one by the same horse, coming two this Spring, which weighs 900 pounds. These are large colts, and hard to beat for weight.

BUCKWHEAT CAKES.—Hall's Journal of Health says buckwheat cakes, properly baked, are very healthy and nutritious. They should be put on a soap stone griddle, over a good fire, and turned once only, and the sooner they are eaten after baking the better and healthier they are. When turned over more than once, like wheat cakes, they are spoiled, and instead of being the most nutritious of food, become the most indigestible. Some housewives, not knowing this fact—which is really a chemical one—spoil this favorite food. Soap stone griddles require no grease, and never burn the cakes.

☞A decoction of the leaves of common chamomile will destroy every species of insect, and nothing contributes so much to the health of a garden as a number of chamomile plants dispersed through it. No green-house or hot-house should ever be without it, in a green or dried state; either the stalks or flowers will answer. It is a singular fact, that if a plant is drooping and apparently dying, in nine cases out of ten it will recover if you plant chamomile near it.—*Exchange.*

☞Farmers who desire nice black harness—and wish the leather preserved will do well to wash them once a year with a mixture made over the following formula:—Extract of Logwood, 6 ounces, Bi-cromate of Potass, 1½ ounces, Hot water, 5 gallons. Soak and wash the harness in the mixture, as you would otherwise with soap and water. Then oil with about one third the oil usually used—the harness will then be soft, pliable and black. The color will not soil the hands or clothing.

☞The Radical leaders have commenced to clamor for a "reconstruction of the Nothern States." Let them wait till the fall elections. The people are preparing to reconstruct the Nothern States on a Democratic basis then so effectually that Radicalism will never more raise its head.

SHOOTING STARS.

There was a man who, when the stars were complaisant below, used to rig up a telescope on the Common, wherewith to study astronomy at ten cents a squint.

One night, as he was getting under way, we saw two Irish gentlemen taking observation. Both were policemen.

"Jamie," said one, "what in the world is that fellow after with his machinery?"

"Whist, ye spalpeen," whispered the other, "and sure can't ye see that it's an air-gun cannon that he's got. He's shooting stars, he is."

"Hadn't we better be gettin' out ov the way thin?" inquired his friend.

"Shure and it's not us," was the answer; "didn't ye iver hear of shooting stars?"

By this time the telescope man had arranged his instrument, and squinted through it at the stars. The police gazed up likewise, in wonder. Just then, by an odd chance, a large meteor shot down the sky.

"Bedad, he hit it—he's fetched it down," cried both the paddies, in one breath. "Shure and that's the greatest shootin' I ever saw in my life!" But a sense of duty prevailed, and one of them at once rudely accosted the man of science.

"Ye'll jist sthop that now, misther, ev ye please. The night is dark enough now, plinty, and if ye go on shootin' stars at that rate, we'll not find our way about the strate, shure."

And the telescope man had to pack up and be off.

Advice to Preachers.—Be short and lively. Load up before you enter the sacred desk; announce your text when the time comes, with distinctness, and dash right into discussion. Fire at point blank range. Keep your eye on that drowsy hearer until he gets wide awake. Hold the children and those restless young folks under good command. 'Give a portion to the aged ones., who try so hard to catch every syllable you utter, and, under some of the modern pulpit orators, lose about half. Stir up all the people! "Shake off dull sloth" in manner and tone. Be in earnest—tremendously in earnest! Time is passing; eternity is near; judgment is at the door! Make an impression if you can, inside of thirty minutes; if not, ask God to give his blessing, and—close.

☞The following story is old, but good enough to be repeated at least twice a year:

A gentlemen visiting Oil City, went to a hotel to stop over night. Said he, "give me the best room you have in the house." "Certainly," said the landlord, "I'll give you the room Thurlow Weed occupied. Waiter, show this gentleman to parlor D." Traveler did as ordered; found nine or ten cots, each with a carpet sack therein. He seized his carpet sack, swearing. "Landlord, I'd like to sleep in the room Thurlow Weed occupied, but I'll be blazed if I don't object to sleeping with the entire Black Republican party."

Cautious.—A wealthy bachelor having had one or two suits for breach of promise, now replies to a young lady who wishes a few moments private conversation:

"No you don't madam. It cuts me to the heart to be compelled to doubt the honorableness of your intentions, but that sort of thing is played out. My rule is imperative, and if you have any business with me, it must be transacted in the presence of two witnesses!"

Horse vs. Donkey.—A green servant-girl was told by her mistress to wash her clothes, and hang them on a horse to dry. Biddy O'Flannagan, having washed the articles, suddenly disappeared, and in about an hour returned leading a donkey.

"What on earth," says the lady, "do you want that for?"

"Och, sure," cried Biddy, "I could not find a horse, but I've got a donkey—and won't that do as well?"

☞You are a coward if afraid to tell the truth when you should do so. You are a coward when you insult the weak. You are a coward if afraid to do right, if you shrink from defending your opinion, from maintaining that which you know to be just and good; and you are especially a coward if you know certain things of yourself, and dare not own them to yourself.

☞A little fellow some four or five years old, and who had never seen a negro, was greatly perplexed one day when one came where he and his father were. The youngster eyed the stranger suspiciously till he had passed, and then asked his father:

"Pa, who painted that man all black?"

"God did, my son," replied the father.

"Well," said the little one, still looking after the negro, "I should'nt 'a thought he'd 'a held still."

We do not doubt but the fellow who penned the above, will regret to the day of his death that his mother was't chased by a nigger and—caught. He ought to have, if he hasn't, the molasses complexion he so much admires.—*Exchange.*

☞"John", said a careful father, "do not give Cousin Jonathan's horses too many oats—you know they have hay."

"Yes, sir," said John, moving toward the barn.

"And hark ye, John; don't give them *too much hay*; you know they have oats."

☞"Larry," said a coquettishly young lady to her cousin, prematurely bald, "why is your head like heaven?" Don't know, I'm sure," replied the swell, "unless it has a shining crown." "Good, but not correct. Because there is no more *ageing* or *parting* there!"

☞"Pray excuse a bit of sarcasm," said Smith to Jones, "but you are an infamous scoundrel." "Pray pardon a touch of irony," replied Jones, as he knocked him down with the poker.

The Soldiers' Orphan Schools a Training School for Radicalism.

Since the removal of Dr. Thomas H. Burroughs from the position of Superintendent of Orphan Schools and the appointment of George F. M'Farland, several Radical newspapers—among them the Cameron organ of Harrisburg—have taken especial pleasure in traducing and misrepresenting the Doctor. This seems strange to uninitiated readers, taken in connection with the fact that whilst in office, those same newspapers were his most strenuous supporters. To us, however, it does not appear strange at all. The Radical leaders in this State, finding their power waning by the decrease of their party strength, resolved, some time ago, that a bold stroke should be made to keep up the supply of Radical voters. Two ways appened open to them—one, the enfranchisement of the colored males of the State; the other, the moulding of the soldiers' orphans into Radical voters through the political manipulations of intense Radicals at the head of the Orphan Schools. The first was soon found to be impracticable, on account of popular prejudices; the latter they had in their own hands entirely, and they determined to make the most of it. To carry out the design, Dr. Burroughs, who, we understand, does not sympathize with that or any other project designed to make political proselytes of the rising generation, had to be put out of the way. His removal, therefore, is evidently the direct result of his worth as an impartial educator, and of his determination to have nothing to do with introducing political doctrines, dogmas or prejudices into either the Common or the Soldiers, Orphan Schools of the State. Not being sufficiently Radical to suit the leaders, he was first deprived of the appropriation for the supply of the *School Journal* to school districts, and then divested of the Orphan School Superintendency.

And here we would say that the striking out of that appropriation is generally understood to have been at the instance of Superindent Wickersham, of the Common School Department, an individual raised and educated by Dr. Burroughs from the ordinary level of a common Yankee "schoolmaster," and fostered into a position for which his narrow views of education and his political prejudices, it is said, entirely unfit him.

In saying this much of Dr. Burroughs we are entirely uninfluenced by personal considerations. He is unknown to us, except through his official acts. He might magnanimously, deny what we have said of Superintendent Wickersham, but his disclaimer would not convince us to the contrary.

The removal of Dr. Burroughs leaves the way clear for subsidizing the Soldiers' Orphan schools to political purposes; and, unless we greatly mistake the temper of the present incumbent, (in the design of the Radical leaders we cannot be mistaken,) they will be so prostituted. But there is also plunder in the matter. By the action of the late Legislature $857,950 were appropriated for the maintenance of such schools for the ensuing year—a sum lacking only $22,625 of the total amount appropriated for the support of common

GLORIOUS DEMOCRATIC VICTORY IN LANCASTER CITY!

The Democracy of the city of Lancaster—the home of Thaddeus Stevens—achieved a most glorious victory at their municipal election on Friday week. Hon. George Sanderson was re elected Mayor by the handsome majority of FIVE HUNDRED AND SEVENTY—a gain of 241 on the majority of last fall, when Clymer had 329. Notwithstanding the late Legislature passed a new charter bill, dividing the wards so as to give the Radicals a chance to carry the Council, the Democracy carried eight of the nine wards and elected thirty out of the thirty-six Councilmen. This is a victory of which our Lancaster friends may well be proud, especially when we take into consideration the great efforts that Radicalism resorted to to carry the city.

Following Connecticut and other signal Democratic municipal victories in every section of the country, we look upon this grand triumph as another precursor of a general victory at the October election.

☞The Democratic majority in Kentucky will probably reach THIRTY-FIVE THOUSAND! There is surely "a good time coming," fellow Democrats.

☞Hon. James E. English was, on the first inst., inaugurated as Governor of the State of Connecticut, and delivered a sound and patriotic address on the occasion. Gov. English denounces the action of Congress by which ten States are placed under military rule and denied constitutional representation, as a violation of all ideas of a republican form of government, and trusts that the "sober second thought" of the people will soon apply a remedy for this monstrous evil. The address is full of wholesome truths, well expressed, and we congratulate the Democracy of Connecticut on the first official paper of their gallant leader.

☞The advertisement of a "grand gift enterprise" under the high-sounding title of the "Gettysburg Asylum for Invalid Soldiers," has been sent us for publication, with the request to notice *favorably*, and allowing the most liberal price. Such questionable affairs have been excluded from these columns ever since we discovered their real character, no matter how good the pay offered; and now that this one has been thoroughly exposed and indignantly denounced by the Attorney General of the State, we should consider it a positive wrong to deceive our readers into backing it up with their money. The advertisement therefore goes into the stove, where columns of "the same sort" have gone before.

JEFFERSON DAVIS' CASE.

On Monday the May term of the United States Circuit Court should begin in Richmond. This Court consists of Chief Justice Chase and Judge Underwood, but, as we have before stated, the Chief Justice declines to hold court on account of the existence of martial law in Virginia, and the trial of Jefferson Davis cannot therefore be had at the May term. In this state of affairs the counsel for the prisoner, Messrs. Charles O'Connor, Wm. B. Reed and George Shea, made application to Judge Underwood at Alexandria, Virginia, for a writ of *habeas corpus*. The writ was granted on Thursday and made returnable on May 13th, before Judge Underwood, at Richmond.

It is directed to the officer in command at Fortress Monroe, and directs him to produce the body of Jefferson Davis at the Court, in Richmond, on the 13th. This writ was, on Thursday, taken to Richmond by Mr. Shea and given to Deputy Marshal W. A Duncan, of the Circuit Court there, who will personally serve it on the officer in command at Fortress Monroe. It is understood that this writ of *habeas corpus* was applied for by the counsel in the case by the advice of the Government law officers, and that such instructions will be given to the officer at Fortress Monroe that he will thus be surrendered to the civil authorities. The next step in this important case will be made evident on May 13th, when Jefferson Davis will probably be taken to Richmond.—*Ledger.*

Indian Affairs.—Late advices from Arizona state that a war of extermination has been commenced against the Indians, who are unusually active and hostile in all parts of the Territory. General Gregg has inaugurated a vigorous campaign, and is about to issue an order declaring the Indians outside the reservation hostile, except the Mohaves and the Chimanuevis. An expedition to the Black Mountains killed fifty-four Indians and wounded a number more, and destroyed a large amount of provisions and stores. Detachments of troops are sent out in all directions, and the work has commenced in earnest. More soldiers are needed.

☞The Court of Quarter Sessions of Indiana county, at its late sitting, granted five tavern licenses for Indiana town and refused all applications from tavern-keepers elsewhere in the county, where tayerns are really needed for the "entertainment of strangers and travelers." Radical courts, like Radical politicians, have queer notions of propriety and justice.

THE EXPOSED LOTTERY SCHEME.

Attorney General Brewster has given his official opinion of the lottery scheme referred to in a recent letter of his, and which was made the subject of some remarks in these columns on Monday last. His judgment is a clear and strong condemnation of the whole transaction.—Every point made in our article is emphatically affirmed. He declares the pretended meeting of the corporators, at which Generals Meade, Beaver and Pennypacker were *not present*, to have been illegal; and that, even if it had been a legal meeting, they could not have created a board of supervisors composed of lottery venders, not one of whom was among the corporators named by the Legislature, for the purpose of selling out to them all the franchises of the corporation. He pronounces all the proceedings to be "nullities;" that the scheme proposed under the artfully contrived phrases and ambiguous terms of the act is a vicious system of gambling, forbidden by long-established law in Pennsylvania; and warns the persons engaged in the scheme that he will resist the execution of it by prompt legal proceedings. Thus an artfully contrived plan to revive and legalize the lottery system in this State has been checked in its inception by the conscientious regard of some of the corporators for their honorable name and fame as soldiers, and by the vigorous action of the able and fearless law officer of the Commonwealth. For the information of newspapers at a distance that may not know just what scheme is referred to, we may state that it is the lottery recently advertised under the title of the "Gettysburg Asylum," which proposed the sale of tickets to the amount of $100,000 at the *first* drawing. Out of this, $10,000 only were to go to the asylum, and $390,000 into the hands of the "supervisors," but this generous style of distribution was not set forth in the advertisement. The arrangement made with the lottery men contemplated *thirty* of these drawings, amounting in all to *twelve millions or dollars*, to be distributed on the very liberal scale above referred to, viz: Eleven millions seven hundred thousand dollars to the lottery supervisors, and the meagre balance to the asylum. From this the press at a distance will see what sort of scheme it is that the Attorney General has pronounced illegal, vicious and criminal, and has interposed his official authority to stop.

The Gettysburg Asylum Case.

OFFICE OF THE ATTORNEY GENERAL, PHILADELPHIA, May 4, 1867.—To Major General George G. Meade, U. S. A. and President of the Gettysburg Asylum for Invalid Soldiers:

Sir: I have the honor to acknowledge the receipt of your letter of May 3, 1867, enclosing copies of Act of Incorporation, minutes of meetings and by-laws of the association of which you are the President, and as to which you addressed me.

The subject you submit to me has, before this, been presented to me by Mr. Kemble, the State Treasurer, and by Gen. Sickel. The papers you send have been examined by me. I have also seen and read an advertisement of the scheme of the Board of Supervisors of your incorporation, and published in the different papers of this city.

From the foregoing papers, and from the narrative contained in your letter, I have arrived at the following conclusions:

The question you propose to me I will answer. It is practically a general question, as follows: An inquiry "of my views on the case as it now stands."

First—The scheme proposed, unless specially and expressly authorized by law, is criminal, and will expose all engaged in or concerned with it to indictment. It is really that immoral and pernicious thing a lottery, and nothing else. It therefore becomes all who have authority in this incorporation to pause before they act and adopt so vicious a contrivance to carry out the powers given by the statute, and if there is a doubt as to their right thus to do, have that doubt resolved by a judicial decision, and not to act on this scheme and assume that, by artfully contrived phrases and ambiguous terms, the Legislature intended to repeal a portion of the criminal law of the State, and create again a system of gambling that once, like a pestilence prevailed, to the ruin of the people and dishonor of the Commonwealth, and against which advancing Christian civilization raised its voice, and a system that now exists nowhere but in governments cursed with slavery, or where gambling in all its forms is allowed by law.

Second—The acts of the first meeting were not legal. A majority of the corporators were not present, and the statute does not give authority to a corporator to delegate his power to any one.

Third—The supervisors, having been created at that first meeting, were created by those who had no power to create them; and I will further add that, had the meeting been properly and legally held by the corporators, they could not have created such a body of supervisors, and given to them the power that is given to them by the by-laws, and surrendered to them for a consideration the important franchises of the corporation. Among the supervisors chosen there is not one of the original corporators selected by the Legislature, but they are men who have long been known as lottery venders and whose names are notoriously connected with lottery grants in other States.

Fourth—I have read the statute, I have read the minutes, I have read the by-laws, and I have read the proposed scheme, and it is my opinion that the statute does not authorize any such scheme; and as Attorney General, I request you, as president of the corporation, to give these corporators notice that I will resist the execution of that scheme by prompt legal proceedings.

I believe I have substantially complied with your request. At your proposed meeting on Tuesday you can treat the former action of the minority of the corporation as a nullity, as all that was done by them was illegal, and you can then proceed to regularly and legally organize your corporation, and execute the powers expressly given by the charter to do a lawful and proper thing in a lawful and reputable way.

If you require any further advice from me, do not hesitate to call on me. I thank you for your courtesy, and for the nice sense of public duty that induced you to appeal to the law officer of the Commonwealth to help you hinder a proposed wrong under color of law.

I have the honor, sir, to be respectfully yours,

BENJAMIN HARRIS BREWSTER, Attorney General.

Gen. Meade Withdraws.

The Philadelphia *Age*, of Thursday, says:

A meeting of the corporators of the Gettysburg Asylum for Invalid Soldiers was held yesterday morning, at which General Meade announced his agreement with the views of the Attorney-General with regard to the legality of the scheme, and tendered his resignation as President and corporator of the association, and withdrew from all further connection in the affair.

☞The bill for this mammoth *lottery* was introduced and engineered through the State Legislature by the bogus Senator from this district. What excuse will he give for the part he played in this "snaky" attempt to color with the authority of law a stupendous lottery gambling establishment in this Commonwealth? Did he frame the bill himself? If he did not, who did? It won't do to say that he did not understand the "artfully contrived phrases and ambiguous terms," alluded to by the Attorney General; because if he did not, he exhibited inexcusable ignorance, and if he did, he placed himself in a much worse attitude by pushing through so disreputable a bill.

TOWN AND COUNTY AFFAIRS.

"WAIT A LITTLE LONGER."—Our columns are still heavily taxed with advertisements. Patience, friends. We have just returned from New York, where we contracted for a new Power Press, with a view to the enlargement of the COMPILER. The machine is to be built specially to our order, and as soon as completed will be forwarded here. This will require some weeks—how many we cannot now exactly say. It is our purpose to make the contemplated improvement as gratifying as possible to the numerous friends of the establishment, and although the cost involved will be beyond our present means, we have an abiding faith in the good will of those whom we have for nearly a quarter of a century served.

INTERESTING SERVICES.—Yesterday week, the 5th inst., the Rev. W. R. H. Deatrich, Pastor of the Reformed Church of this place, after an appropriate sermon, based on *Acts 8: 17*, conferred the solemn rite of Confirmation upon sixteen candidates, some of whom are heads of families. The service was unusually solemn and deeply impressive.

The following Sunday (yesterday) the "most Comfortable Communion of the Body and Blood" of the crucified Lord was devoutly observed by the congregation, and also by the Classis of Zion, now in session here, at which time ten persons were received by certificate, making, in all, an addition to the congregation of *twenty-six members*.

MEETING OF CLASSIS.—The Classis of Zion of the Reformed Church, now in session here, embraces within its territory the counties of Perry, Cumberland, York and Adams. Its first annual meeting was held in the Reformed Church at York, Pa., in May, 1820. It was then composed of but a few Pastoral Charges; now it numbers twenty-four. Each Pastoral Charge is represented in the body by the Pastor and an Elder. The present meeting was opened, on last Friday evening, with a sermon from the Rev. W. F. P. Davis, of New Oxford, this county, who was also chosen President. Rev. W. R. H. Deatrich, of this place, is Stated Clerk, and Elder William A. Wilt, of York, Pa., Treasurer. In connection with the sessions of Classis, interesting religious services are had in the evening.

FAIR GROUNDS.—Work on the Adams County Agricultural Fair Grounds has been commenced. Mr. J. S. Gitt, Civil Engineer, week before last, laid out the Trotting Course, (half a mile in length, with long sides,) and the grading of it is now in progress. Every effort possible will be made for a grand exhibition in the fall. In the meantime we would urge upon the friends of the enterprise, in all parts of the county, *the purchase of life memberships*, costing but $10 in each case, but which should aggregate a considerable amount to the treasury. The officers will do their utmost, and should be encouraged by the farmers and the people generally in the way indicated. *Now* is the time for substantial help.

NEW CASHIER.—The President and Directors of the Gettysburg National Bank have chosen J. Emory Bair as Cashier, in place of T. D. Carson, resigned. Mr. Bair has fine qualifications, is very accommodating, and will, we are sure, make an efficient and popular officer.

RESIGNED.—Rev. Mr. Carnahan has resigned the Pastorship of the Presbyterian Church in this place, with a view to a new field of labor—Pittsburg, or its neighborhood. The resignation has been accepted.

NORMAL SCHOOL.—Superintendent Sheely's Normal School is now in "the full tide of successful operation." We understand that the number of students in attendance is forty-five, with a prospect of further accessions. Mr. S. is a very thorough educator, and we are sure that his school will prove of great benefit.

LECTURE.—Speaker Colfax delivered his lecture, "Across the Continent," in the College Church, in this place, on Thursday evening, to a full house. The lecture is mainly descriptive, and, as such, interesting.

FRUIT.—Some of our fruit growers are of the opinion that they will have fair yields of peaches and apples, whilst others "give it up" and look for little. The weather has certainly been unpropitious. A few weeks, however, may show the exact state of the case.

HAIL.—A hail storm of extraordinary violence passed over York on Monday afternoon, unroofing buildings, uprooting trees, demolishing fences, and breaking a large amount of window glass. Fifty or sixty panes were broken in the Court-house, and more or less breakage occurred in all parts of the town.

Hail also fell here on Monday afternoon, but we know of no damage resulting.

RAILROAD SURVEY.—The survey of a railroad route between Littlestown and Frederick was to have been commenced last week, and we suppose that by this time the engineers are well on the way. Messrs. P. Henry Irwin and J. S. Gitt conduct the survey, and as they are both well qualified for the task, the best route will no doubt be found.

NEW STREET.—The last Legislature passed a bill authorizing the laying out of a new street in this place, running from the Harrisburg road to Washington street, immediately north of Gettys' Run, and closing up parts of the Harrisburg and Mummasburg roads. Messrs. Samuel Herbst, Alexander Cobean and Hamilton Longwell are the Commissioners named in the act.

JOB PRINTING.—Our facilities for doing job work are now better than ever. With a lot of new material, including fine inks of all colors, the COMPILER office can't be beat in turning out beautiful work. Prices are as low as can be lived by.

☞John Norbeck has been appointed Postmaster at Green Ridge, in this county, in place of John Heagy, resigned.

HEADACHE.—The brain and stomach are very intimately connected, consequently a disordered stomach produces Headache, Dizziness, Vertigo, &c. Coe's Dyspepsia Cure will certainly correct the Stomach, and assist digestion, thus removing the cause of these troubles.

BUILDING ASSOCIATION.—The Gettysburg Building Association organized on Saturday evening week by the election of the following officers:

President—Dr. E. G. Fahnestock.
Vice President—W. A. Duncan, Esq.
Treasurer—J. A. Kitzmiller.
Secretary—Jno. F. McCreary.
Directors—John Culp, John Rupp, Dr. J. W. C. O'Neal, William Chritzman, Col. C. H. Buehler.

Subscriptions to the stock of the Association can be made by applying to either of the above. The character of the gentlemen who are leading in this enterprise affords a good guarantee of efficient management and full success.

THE GREAT SHOW.—Whitbey & Co's. Great Circus and Menagerie, combined, the largest exhibition in the world, will exhibit in Gettysburg, next Friday, 17th inst. The menagerie, it is said, consists of a large and rare collection of animals and birds, and the performances in the circus department are represented as being unsurpassed by any establishment of the kind in the country. The exhibition will be held on Stratton street, north of the Railroad, both in the afternoon and evening. There will no doubt be a great crowd in attendance. Read the advertisement in to-day's paper.

☞We direct attention to the advertisement of Messrs. Westcott & George, Philadelphia, in another column. They have a very large and attractive assortment of Guns, Pistols, Rifles, Base Ball Implements, Fishing Tackle, &c., which they offer at very reasonable prices.—Messrs. W. & G. are clever and accommodating young men, and do everything possible to please their numerous customers.

IMPORTANT TO FARMERS.—Messrs. Elias Roth and George Shane, of New Oxford, this county, have secured letters patent for a Farm Gate, which promises to be very popular. It is constructed upon a new principle, making its operation very easy, and is so put together, of wood and iron, as to insure great durability—two points necessary in a *good* farm gate. It is claimed that "this is the only gate that has ever been invented which can effectually be opened, closed, and locked or unlocked, by a person in a vehicle, with a team, or on horseback, without getting from his seat." The invention will no doubt prove a valuable one, to the farming public, as well as the patentees.

☞As the time is now approaching when farmers will be getting their machinery ready for harvesting, we would suggest to them that they get the strongest, lightest running, and most complete reaper and mower. In our advertisement of Dodge's Harvester, Ohio and Buckeye, Ball's Ohio and Russell's Screw Power Reapers and Mowers, they being the leading machines of the day, and combining all that is required, they are less liable to break and get out of order, as the majority of machines do.—Farmers wishing to purchase a machine this year, would do well to call upon Mr. Wm. Wible, who is the Agent for the above mowers, and examine his Mowers and Reapers, before purchasing elsewhere. He warrants all machines to do what is represented of them.

AN AGE OF IMPROVEMENT.—It will be seen by reference to Henry Thomas & Son's advertisement of Hubbard's Self-raking Reaper and Mower, that this machine possesses singular advantages over all other Self-rakers. The driver can regulate the size of the sheaf, and at the same time, if the grain stands regular, the Rake will make a sheaf each revolution without any aid from the driver, by simply changing a single bolt. Another advantage is that it will throw oats in a swath or in sheaves. While this machine possesses these advantages over all others, the cost is very little more.

☞Business notices in our local columns are charged ten cents per line in all cases.

The Household's Friend.

The mere fact that Radway's Ready Relief can be used for so many good purposes, is simply the reason why it can be found in almost every household. A few drops, taken in water are far superior, as many people, as a beverage, to the thousand-and-one nostrum bitters thrust upon an intelligent community, which, taken too often, will surely kill. As a tonic, many prefer the Relief to the best wine-bitters. It is an agreeable stimulant, warms the stomach, tones the Liver, instantly arrests pains, and silences miasmatous and bilious attacks. Its medical properties are so various, as to make it invaluable the moment one is seized with sickness, be it Cholera or Cholera Morbus, Cholera Asphyxiata, Bilious Colic, Yellow Fever, Ship Fever, Typhoid Fever, Fever and Ague, Pneumonia, Inflamation of the Bowels, Small Pox, Dysentery, Diarrhœa, Rush of blood to the Head, &c. This invigorant is invaluable in such cases: 30 drops in water, three or five times a day, when feelingly affected, will save health and life. In the most severe cases it is an instantaneous relief to the sufferer. Always apply nothing else to Cuts, Burns, Bruises, Sprains, Strains, Scalds, and for Rheumatism, will afford immediate relief, and consequent cure.

Sold by Druggists. Price 50 cents per bottle.

A Young Lady

returning to her country home, after a sojourn of a few months in the City, was hardly recognized by her friends. In place of a coarse, rustic, flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of twenty-three she really appeared but eighteen. Upon inquiry as to the cause of so great a change, she plainly told them that she used the CIRCASSIAN BALM, and considered it an invaluable acquisition to any Lady's toilet. By its use any Lady or Gentleman can improve their personal appearance an hundred fold. It is simple in its combination, as Nature herself is simple, yet unsurpassed in its efficacy in drawing impurities from, also healing, cleansing and beautifying the skin and complexion. By its direct action on the cuticle it draws from it all its impurities, kindly healing the same, and leaving the surface as Nature intended it should be, clear, soft, smooth and beautiful. Price $1, sent by Mail or Express, on receipt of an order by

CONSUMPTION CURABLE BY DR. SCHENCK'S MEDICINES.

TO CURE CONSUMPTION, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created so good wholesome food, which, by these medicines will be digested properly, and good healthy blood made; thus building up the constitution. SCHENCK'S MANDRAKE PILLS cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCK'S PULMONIC SYRUP is unrivalled as well as medicinal, and, by using the three remedies all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. Patients will take these medicines according to directions. Consumption is very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhœa they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise also in the rooms as much as possible, eat all the richest food—at most, game, and, in fact, anything the appetite craves: but be particular and masticate well.

The Puzzle of the Age!

The sharpest observers give it up. People who are proverbial for their critical perceptions, are utterly at fault.

Know Thy Destiny.

MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a trance she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a life-like picture of the future husband or wife, of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications sacredly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. 223, Hudson, N. Y.

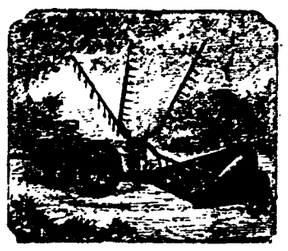
$1,000 REWARD!

RAN AWAY, April 15th, 1867, High Prices, a very unpopular fellow; no thanks for his return as we have substituted a very popular gentlemen in his place called Very Cheap at PICKING'S.



Hubbard's
SELF-RAKER.

THE undersigned are agents for this celebrated Combined Self-raking Reaper and Mower. This machine has two driving wheels, hinge-joint and folding-bar, is very simple in construction, and is considered by those who have used them to be equal in grass to any light machine made for mowing only. It cuts 4 feet 8 inches in grass, and 5 feet 6 inches in grain, is a rear-cut side-delivery, capable of cutting a whole field of grain without binding a sheaf, and does the most satisfactory work in lodged grain, to be worked with two horses. We claim this Self-raker to be the best in existence. Farmers reading over the different advertisements will come to the conclusion that all are best, but we will give them our reasons for calling ours the best:

1st. This Self-raker has four rakes (no blanks or fans). The driver, by means, of a small lever in front of him, can make either rake sweep the platform at this will. You will see by this that it makes no difference how far you have to drive, you can always have a full sheaf, thereby saving binding, gathering or dividing sheaves.

2nd. If your grain is one thickness so that it will permit of making a sheaf each revolution of the Rake or you wish to put the driver on the horses, you can do so by simply drawing one bar, and still keep the rakes all on to drop into the lodged or tangled grain. Here is one point to which we wish to draw your attention. Take notice where all these rakes strike into the grain and then compare them with blanks or reels on other Self-rakers.

3d. If you wish your oats on a swath, tie your lever fast, and it will do its work perfectly and you will be safe for wet weather.

4th. All men know that in a hand-raking Reaper that the reel must be changed for different kinds of grain to make it reel on platform, and so must a Self-raker to make perfect work in extreme tall or short grain. This Rake has this most desirable and indispensable improvement, which no other rake has. This is done by changing two set screws in rake-reel, which works on a pirit. With a combination of these four desirable points, it has been unanimously acknowledged by all disinterested and practical machinists to be decidedly simple and durable in its construction.

At the great National Field Trial, held at Auburn, New York, last July, which is conceded to have been the largest and severest trial ever held in the United States, lasting several weeks, under the entire management of the New York State Agricultural Society, this machine was awarded the Gold Medal for the best Combined Self-raking Reaper and Mower, (Class No. 4). Since the great trial, different machines are claiming Medals, and most persons are in a fog about it. We will explain: There were about 50 different machines entered for the different Medals, and they were classed as follows: The best machine in each class was awarded a Medal, and the second best a prize of $25.

Class No. 1, Light Mowers; No. 2, Reapers, Hand Rake, (for grain only); No. 2½, Reapers, Self-rake, (for grain only); No. 3, Combined Reaper and Mower, (Hand-rake); No. 4, Combined Reaper and Mower, (Self-rake) Hubbard's; No. 5, Combined Hand and Self-raking Reaper and Mower, (thrown out on account of inferior work)

At the Field Trial held by the Center County Agricultural Society, on McAllister's farm, last July, Hubbard's Combined Self-raking Reaper and Mower was awarded the highest premium for the best work done. See Circulars for report. All we ask is farmers to come and see this machine for themselves. We warrant them to give entire satisfaction in all respects. Sample machines on hand. Extras always on hand. Branch Shop at York, Pa. Address Granite Hill Post-office, Adams county, Pa.

WHAT'S DOWN!—Why Coats, Pants and Vests at PICKING'S.

The National
REAPERS AND MOWERS.
Hoff heins' Patents.

The No. 1 Machine has two Driving Wheels, Hinge Joint and Folding Bar, making it very convenient to move from one place to another; is very simple in its construction, extremely light draft and durable, cuts 4 feet 10 inches in grass and 5 feet 2 inches in grain; is a Self-Raker and Side Delivery, and is capable of cutting a whole field without binding a sheaf, and does the most satisfactory work.

This Machine can also be used as a Hand Machine without injuring its qualities as a Reaper. The Machine is warranted to cut Grass as well as any Single Mower that cuts the same width. It is a strong two-horse Machine—three or four can be used, if required, in hilly ground.

GREAT IMPROVEMENTS have been made for the coming season.

The Machine is also perfectly balanced, no weight on the horses' necks—in Mowing or Reaping.

No. 2 is a light two-horse Machine, and is differently constructed, cutting on the right-hand side; and in front of Driving Wheels is a Self-Raker and Side Delivery. The difference in the width of cut is 6 inches.

The shifting lever and the raising and lowering levers are both at the driver's right side, and with his right foot upon a pedal and his left upon a foot-step, he has the power and control of the whole machine, he can raise or lower the platform from three to fourteen inches, can throw the machine out of gear, and regulate the rake so as to make the sheaves large or small, and all this at the same time and without retarding the motion or speed of the machine.

All Machines warranted to give satisfaction! For further information apply to

SHIREMAN'S
NATIONAL SELF-DISCHARGING STEEL SPRING TOOTH
Horse Rake!
Patented September 9th, 1862, and Re-issued December 6th, 1864.

This Rake is an Independent Steel Spring Tooth Rake, and has proven itself to be the most perfect HORSE RAKE now in use. With this Rake the Horse does all the work, both the Raking and Discharging, by the driver moving a lever a few inches, which throws it in gear, and as the horse moves forward it raises the teeth and discharges its load, and then shifts out of gear itself, the teeth dropping down ready to rake again. By this operation it is easily understood that the *Raker has hardly any work to do at all!*

Important improvements have been made of late, making it very simple and durable in its construction. Thousands of them have been sold in the few last years, and given the best kind of satisfaction.

The World Astonished

AT the Wonderful Revelations made by the great Astrologist, MADAME H. A. PERRIGO. She reveals secrets no mortal ever knew. She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malific stars that overcome or predominate in the configuration of the nativity, aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of the above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, and send a small lock of hair.

Reparator Capilli.

Throw away your false frizzles, your switches, your wig—
Destructive of comfort, and not worth a fig;
Confessed, come youthful, comeragly and fair,
And rejoice in your own luxuriant hair.

REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and five will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given. "EMAIL DE PARIS,"

THE NEW

Beautifier of the Skin.

TESTIMONIALS FROM CELEBRATED LADIES.

This secret of beautifying the skin being known only to Messrs. Jared & Rene, they honorably state that it differs from all other preparations. It gives to the most harsh and freckled skin both the texture and color of polished Ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or blackworm specks, and is especially successful in smoothing out the marks left by the smallpox.

The agents of "L'Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as

Signora RISTORI,
M'dlle FELICITA VESTVALI,
Miss MAGGIE MITCHELL,
Mrs. D. P. BOWERS,
LUCILLE WESTERN,
Madame PONISI,
Mrs. EMMA WALLER,
LUCY RUSHTON,
NOEMIE DE MARGUERITTES,
Miss A. PERRY,

and many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.

The beautiful Lucille Western says:

"I find that the 'Email' produces all the brilliancy of rouge and lily-white, with the great and peculiar advantage of total harmlessness. It really adds to the softness and beauty of the skin."

The magnificent Vestvali says:

"I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth."

Miss Maggie Mitchell says:

"I have tried the skin beautifier, 'L'Email de Paris,' and found that it instantly imparts a natural bloom and freshness to the complexion."

"Jared's Email de Paris" is used as a delicate beautifier of the skin for Theatre, Saloon or Ball Room, by the most refined and scrupulous ladies, producing all the beautifying effects of rouge and lily-white, without their vulgar glare or injury to the skin.

Sewing Machines.

THE GROVER & BAKER.—THE BEST IN USE. These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money*, and do their work better than it can be done by hand.

The undersigned, having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

☞ Needles and Thread will also be supplied. J. S WITHEROW, Agent,

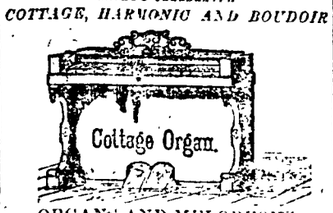
KELLY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR



ORGANS AND MELODEONS.

These Instruments stand unrivalled by anything found in this Country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to dis over excellence in reed Tone, pronounce them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severest cutting and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists), will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a lifetime of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

☞ BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

☞ Instructions given both in Vocal and Instrumental Music, at our rooms and at pupils' homes, either to individuals or classes, on reasonable terms.
